Karachi, Pakistan • (+92) 311 238 8611 • talhaarshad010@gmail.com • linkedin.com/in/talharshad
• github.com/talhaarshad010

React Native Developer with 2 years of experience building cross-platform mobile apps. Currently a 5th-semester Computer Science student, skilled in collaborating with teams and engaging users through intuitive UI/UX. Passionate about clean code, performance optimization, and solving real-world problems through technology.

PROFESSIONAL EXPERIENCE

Logic Loops Solutions, Karachi, Pakistan • Mobile Application Developer 02/2023 – Present

- Delivered high-impact projects under tight timelines, contributing to a 45% increase in client satisfaction.
- Maintained 100% on-time delivery, improving overall project throughput by 35%.
- Reduced bug rates by 25% and post-deployment support requests by 20% through scalable code structures and rigorous testing.
- Enhanced client workflows and productivity by up to 30% by integrating tailored solutions across diverse application requirements.

Code Master Innovative, Karachi, Pakistan • Junior Mobile Application Developer 08/2022 – 01/2023

- Contributed to the development of web and mobile applications, including e-commerce platforms and multi-user systems, boosting client acquisition by 35%.
- Reduced overall project delivery time by 20% through effective code reuse and streamlined development processes.
- Enhanced user retention by 30% by building responsive, user-centric interfaces in collaboration with design and backend teams.
- Improved code quality by 40% by applying modular architecture and enforcing clean coding standards across all projects

EDUCATION

Bachelor's in Computer Science • SZABIST, Karachi, Pakistan 08/2023 – Present
Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Web and Mobile App Development, Database Management Systems, Software Engineering, Operating Systems, Computer Networks.

PROJECTS

- **ABET Broker App**

Led the design and development of the user interface for a mobile broker app using React Native, creating and optimizing over 50 screens to improve user navigation and engagement by 40%. Focused on UI/UX enhancements and seamless interaction between users and the application, resulting in a 35% increase in user satisfaction and overall app usability.

- **Music Streaming App**

Designed the user flow and interface for a cross-platform music streaming app using React Native, improving user navigation and engagement by 30%. Optimized loading times and app responsiveness by 25% through efficient state management with Redux Toolkit for local storage. Integrated AWS backend with Mongo DB for reliable data storage and retrieval, ensuring smooth and consistent user experience.

- **My-Brew**

Solely developed a full-stack React application for sharing and discovering brewing recipes, enhancing user engagement by 40% through intuitive UI/UX design. Built both frontend and backend functionalities, including user authentication and personalized recipe management, improving user retention by 30%. Enabled seamless community-driven content sharing, fostering a 25% increase in active user interactions.

SKILLS

- **Technical Skills:** React Native, React.js, Next.js, HTML, CSS, JavaScript, GSAP, MUI, Tailwind CSS, Node.js, Next.js (API Routes), Mongo DB (Compass & Mongoose), SQL, SQLite, Firebase (Cloud Firestore), C, C++, Java, Python.
- **Soft Skills:** Team collaboration, Agile development, Problem-solving, Communication, Time management, Adaptability, User engagement.
- **Tools:** Postman, Git, GitHub, VS Code, Android Studio, Xcode, Figma, Adobe Xd, Firebase Console, Mongo DB Compass, React Native CLI, NPM/Yarn.

CERTIFICATIONS

- **Web Development Fundamentals • APTECH**, Karachi, Pakistan 02/2023 – 08/2023
Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Web and Mobile App Development, Database Management Systems, Software Engineering, Operating Systems, Computer Networks.
- **React Native – The Practical Guide • Udemy** Completed in 2023
In-depth course on mobile app development using React Native. Covered frontend and backend development, including API integration, Firebase authentication, Mongo DB for data storage, and building fully functional cross-platform applications.
